**Shearson : Italy 2017 Panoramic Wall Calendar** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Italy 2017 Panoramic Wall Calendar:

It is however, very unfortunate, that the quality of the paper they use, is absolutely terrible.For example, I wrote down dates all throughout January, and to my great dismay, the impression went all the way through to July! Completely ruining the rest of the months, and makes it look extremely unprofessional for the work place.I must now look for another calendar, and spend more money to replace this one. It is my recommendation to stay away from all CoolSites.com Calendars, especially if they are made from the same quality! Again the pictures are great, and will look absolutely lovely hanging up as a display!Just don't plan on using the calendar!0 of 0 people found the following review helpful. Good for a small space.By L RNice calendar for a small apartment.It was a hit!

Panoramic photography featuring Italy perfectly in the office cubicle where standard wall calendars are too large. As a bonus you'll find a travel resource directory with information on parks, gardens, annual events, museums, theatres and historic sites. The calendar is a terrific planning guide, travel memento or gift for anyone who loves all things from Italy.

About the AuthorOur location in the Wisconsin northwoods helps keep Willow Creek Press off the publishing world's radar. Around here, we're more accustomed to landing walleyes and muskies than big books and authors - events hardly worthy of note in Publisher's Weekly. But, a few years ago we did get noticed with the release of Just Labs, a unique and colorful tribute to Labrador retrievers. The book quickly became a bestseller (now with 250,000 copies in print) and frankly startled us with its success. We were not surprised for long, however, and now an entire line of popular Willow Creek Press titles evokes the myriad joys of dog and cat ownership. Today we are known for these high-quality, light-hearted books and feature over 40 such titles in a continually-expanding line.
