Lc_Escobar This is an amazing travel guidebook and throughout this book I have come to know lots of essential things about Italy. Actually, my sister and her husband live in Italy. I have a plan to go there soon, but will not stay long in my sister's house. I really needed to know all the essential information that a traveler should know while staying in Italy. This book fulfilled my expectation and gave me huge information about this beautiful country. Here I have found everything like helpful guides, tips, tricks, information and much more things. If you read this book, then I am pretty sure you will get a better understanding. So, honestly, I will recommend this travel guidebook to all interested tourist readers. 3 of 3 people found the following review helpful. Not really what I expected
By Alan D. Eastman Very curious for a travel book, this one had very little information on most destinations. Rather, it concentrated on things common throughout the country: the way common things work, how Italians think and live, etc. Interesting, but not really what I was looking for. 0 of 0 people found the following review helpful. Bellissima Italia
By Elenita Bombonita I promised myself to stop buying travel books, but I just can't stop dreaming about visiting all these spectacular countries when reading these travel guides. And couldn't resist buying this one when seeing it in my featured books section. And it's just so awesome, helping you plan every detail of your travel, giving plenty of info, and great tips too. And I do hope I get the chance to see the beauties of Rome, Venice and Florence very soon. But for now I can surely recommend this guide for those who are planning a trip to Italy.
