From William Heinemann : James Boswell on the Grand Tour Germany and Switzerland 1764 before purchasing it in order to gage whether or not it would be worth my time, and all praised James Boswell on the Grand Tour Germany and Switzerland 1764:

2 of 2 people found the following review helpful. a most excellent readBy NazaniIn this volume of Boswell's papers he parties his way through the courts of Germany, generally in a fine mood, in spite of often primitive travel conditions. The great success of his trip was meeting and befriending both Rousseau and Voltaire. He also meets Frederick the Great, but I found his interactions with everyday people the most interesting The introduction and copious footnotes by Frederick Pottle, Sterling Professor of English at Yale, do much to explain the bits that would confuse modern readers. Well illustrated with maps and portraits.

Boswell on The Grand Tour: Germany and Switzerland 1764 edited by Frederick A. Pottle
