The idea is good, but this book is not a good source ...By Astrid KramerI am taking my 11 year old Grandson to my home country , Austria, and thought this booklet might get him some quick information.The idea is good, but this book is not a good source of information ! There are numerous grammatical and typing errors, in addition to blatantly incorrect facts! It is news to me that "famous explorers " Mary Kingsley and John Speke are from Austria ! And we can't do better with famous Austrian's than Arnold Schwarzenegger ? Give me a break ! I have never known an Austrian who would eat Goulash for BREAKFAST, and if this booklet is meant for children, the varieties of coffee available are not really important. PEZ candy's inventor is spelled Haas, not Haass, and the page on history obviously has the first few lines missing completely, starting in the middle of a sentence..On and on . It seems to me this booklet was written in a hurry and there was never any fact or spell check done !Get it corrected and cleaned up, or pull it !!Astrid Kramer0 of 0 people found the following review helpful. Missing InfoBy Joseph and Tara LounsburyJust received the print edition of this book and quickly browsed through it. It looks like it has some interesting information. However, the page on history obviously starts mid-paragraph. Needs to be edited.
