Smart Kids Guide To SUPER SCOTLAND...or whatever book was the original. Was this the original? Who knows. Both books printed and bound to order as a booklet from the same printer. Would love to know the actual author and photographer. At least this one is in color.0 of 0 people found the following review helpful. ScotlandBy Ricky KimseyGreat facts about Scotland in this volume. One that makes me envious is that it rains half the year. I live in drought prone part of the US so I would gladly take a part of their rain.1 of 1 people found the following review helpful. Five StarsBy figandamyGreat book for my 8 year old! Pictures and about a paragraph of information. Just enough info, not overwhelming.
