Jonathan Dimbleby : Jonathan Dimbleby's Russia before purchasing it in order to gage whether or not it would be worth my time, and all praised Jonathan Dimbleby's Russia:

1 of 1 people found the following review helpful. vast subject, points made,By blackbirdA 10,000 mile journey. His dvd, which I have and have watched several times, is good enough as a help to sights and sounds. It is 5 hours long divided into 5 parts.His book takes me, in my humble opinion, into the depths of his encounters with the Russian people. Thousands of details are in the book. Real depth of understanding in the book if only because so very many more situations and people are covered.At the very end of the book is an account of his meeting young people in a cafe

in Vladivostok. They talk of the future. Dimpleby makes comments in the book not heard in the dvd. Stunning comments. He compares this cafe conversation to a party conversation in St. Petersburg at the distant early beginnings of his travel. The wish for more control over the media and a disregard for democracy is obvious. Even for young people who have an education including graduate studies in America. You can lead a horse to water but you can't make him drink. An old saying from an old farmboy-----me. The depth of the book far exceeds the dvd. It is a real study. I've only begun but the book will be bedside reading for a long time. 5 of 5 people found the following review helpful. An essential read! By Jetring I was in Russia at the time I picked up this book and started reading...not believing I would "get in to it" or finish it, for that matter, but I was hooked after just a few pages...Dimpleby was putting in to words the exact feelings that I was experiencing while visiting this unique country. I consider this one of the best books I have ever read, and the important thing is that it opened up a whole new realm of interest...Alexander Solzhenitsyn, Tolstoy, Putin, Stalin, Russian history and culture. It's an eye opener to the political issues we are dealing with in this country today. 0 of 0 people found the following review helpful. Highly recommended if you want to know more of Russia than simply what's going on in Moscow By MARIANO MOLINA Good and easy to read description of Russia. Insights of everyday life that otherwise couldn't be tasted. In depth knowlege of the feelings and culture of the Russian people
