Collectif : Jungfrau ski before purchasing it in order to gage whether or not it would be worth my time, and all praised Jungfrau ski:

1 of 1 people found the following review helpful. This is a ski-touring mapBy Russell GuyThere are three versions of this map that are available. All three use the national topographic map as the base map. This map is the ski-touring map and includes ski-trails, huts, etc. overprinted on the topo base map. The hiking map (9783302302645) has the hiking trails and huts overprinted. The base topographic map lacks hiking trails. Although more expensive than the

base topo map, the hiking and skiing maps are worth the extra money.
