Just what I wanted...By azvocoI have several guidebooks to Portugal in preparation for a driving tour next fall, but I was very glad to purchase this one as it is exactly what I wanted and included features the others lacked...specifically, some great leads to places to stay in out of the way places hard to find elsewhere including on Trip Advisor, and some very well organized tours of different regions that I sorely needed in planning my trip. If you want a lot of the history, culture, background etc., other guides are there for that but this is a great complement to those in planning a driving tour. 0 of 0 people found the following review helpful.
