Stick to other travel booksBy GGINMadisonI must say that I was very disappointed with this book - I was prepared to receive a book full of photos and some different itineraries than what is already out there. What you get is a book with poorly drawn black and white images and very average travel and itineraries in Switzerland. What would you bother to try to publish b/w drawn images when almost all locations in Switzerland have fantastic photo ops ? Stick with what already has an established reputation for great reviews - Rick Steve's. If you want color images - I'd go with Eyewitness Travel Guide - Switzerland. 0 of 0 people found the following review helpful.
