P L Byrne : Kids Europe Italy Discovery Journal before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kids Europe Italy Discovery Journal:

0 of 0 people found the following review helpful. Wildly Entertaining, Yet Educational By Raeann Brewer This is a cornucopia of fun, loaded with tidbits of knowledge. I would've given it 5 stars if it had more room to actually write in it, since it's marketed as a journal. I can't wait to take it on our trip next year! Both my 16yo daughter and I are sure to

enjoy using it on our travels.0 of 0 people found the following review helpful. My son loves this book and so do I!By Christa F.The book is very easy for a kid to digest and has lots of fun ideas for the whole family! My son is 11 and loves the book. He has found things for us to do while we are visiting Italy that we had not found in our travel guides and it has a lot of fun and educational information too. So glad I ordered this book!0 of 0 people found the following review helpful. Some remarksBy VincenzoI use the guide for the school as teacher.I don't like the absence of colors...I didn't understand that it was a black and white copy.But the text and the ideas are good!ByeVincenzo B.

The Kids Europe Italy Discovery Journal updated for 2006 is a guidebook to Italy for kids only. If you are traveling to Italy with children, they will love seeing the country from the perspective of what the unusual, weird or exciting. Educational insights into art and history are offered and there is a strong focus on appreciating the culture and Italy of today. There is so much to enjoy: food, drama, and a unique approach to life that makes Italy special. The author uncovers the goofy, mysterious and strange aspects of history and art -- things that penetrate the attention of kids. Most guide books focus on churches and museums which can be monumentally boring to children. This little guide and journal can make the sites fun and can open up new pleasures to the whole family. The Italy Discovery Journal is not a standalone guidebook, but a personal guide and journal for kids 6-16 traveling in Italy.
