Bluebird Books : Kids travel journal: my trip to barcelona before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kids travel journal: my trip to barcelona:

3 of 3 people found the following review helpful. It's mainly an empty workbook. By beekoI bought this item expecting there would be more information specific to Barcelona in it that my 4yo could learn from, sort of a super simple guidebook that is catered towards kids, and some space to write/draw their own thing. Turns out (and you can't tell this from the "Look Inside" feature here) it is mainly a blank workbook with instructions near the top of each page, and 90% waiting for the child to fill in. It's not a bad thing, just not what I expected to get.

Kids can record their own travel adventures and make a treasured memory book for their trip to Barcelona, with this travel journal. A great diary and travel companion that will increase children's excitement, this journal offers plenty of writing and drawing space. Helping children become involved in the early planning stages of their trip. This is a great gift for children and a great keepsake for parents.
