Knopf Guides : Knopf CityMap Guide: Vienna (Knopf Citymap Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Knopf CityMap Guide: Vienna (Knopf Citymap Guides):

3 of 3 people found the following review helpful. Excellent truly "pocket" guide By David Robinson If you are making a trip to Vienna, half of the fun is the anticipation and reading a full length guidebook such as the Eyewitness Vienna Guide will help your planning. But once you are there, you can't beat the Knopf CityMap Guide. It has a fold-out format that you can hold in your hand (not like a folding map that you hold in your arms like a newspaper). The Guide highlights the important tourist sites and locates them on the maps. This helps you plan a day or half-day of sight-seeing in the same part of town. The restaurant recommendations are good, and again, you save running all over town--

you look up what is near where you are. I'd count this as indispensable for a Vienna vacation.
