**Knopf Guides : Knopf Guide: Florence (Knopf Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Knopf Guide: Florence (Knopf Guides):

0 of 0 people found the following review helpful. It's a little big to stuff in your pocket but we like how it is organized

and that it is concise. By Don W. Purchased this for our trip to Italy on the advice of a world traveller. It's a little big to stuff in your pocket but we like how it is organized and that it is concise. 11 of 12 people found the following review helpful. Worth its weight in gold. By Benjamin Spencer While living in Florence, Italy, I used this little book on a daily basis. It is a beautiful book and a wealth of priceless information: from scenic walks along the Arno, places of cultural value, stories behind some of the world's most incredible collections of art, churches, markets, wines and trattorias, transportation routes and day trips into the Tuscan hills ... the list is endless. This book is worth its weight in gold. 8 of 12 people found the following review helpful. Useless for a visitor. By A Customer To state it as succinctly as possible, this guide is useless for the first time visitor. The maps included do not list all of the little side streets in the city (a must for the maze that is the historic center). The description of the sites are totally devoid of any practical information for the first time visitor, and what is included is shunted into a separate section in the back. We purchased this instead of the Eyewitness Tuscany because it was more focused on the city, but we found the others in the Eyewitness series to be much more user friendly.
