The nice part is that it's small enough so you aren't carting around a heavy book or an awkward big map. It stores easily in my purse. I can pull it out and look at the 'just the right size map' and see where I want to go next. I only wish they had one for Glasgow, Inverness, etc...all the other places I want to go.0 of 0 people found the following review helpful. best way to understand a cityBy Melanie in PhiladelphiaI love learning about a city organized by neighborhood. By having a map for each zone of the city with info on categories of architecture, restaurants, and shopping all designated on the pop up map, it makes it easy to plan

for your daily activities and focus on everything interesting in that portion of the city.0 of 0 people found the following review helpful. These MapGuides are fantastic!By Pamela D. AustinI have these Knopf map books for London and NYC too. So easy to read ---font size is better than your usual map and no wrestling with it to fold it up! Easy to use and carry in your purse.
