Although we live in the GPS era, I like to sit in front of a map and plot and plan the journey. This map is perfect for that! It's a very thorough map and folds easily. I love that it is not paper, but is laminated - this means it will hold up over time. It's relatively thin too so it will fit nicely when packing or carrying it along. The only drawback I found is the print is a little smaller than I like, but that's common with maps that are this complete. Looking forward to using the map on our trip and I know it will come in handy!0 of 0 people found the following review helpful. Good map. Laminated and very durableBy drakonflyGood map.
