The 1:11000 scale is perfect--it's readable, and the lamination should work well in the rain. 1:10000 would be even more readable and still geographically cover all the main tourist areas. The highway numbers are just a lighter shade of yellow than the roadways, and hard to read. They should be larger and a bright color to stand out. 0 of 0 people found the following review helpful. Five Stars By Ceddie As expected and described 5 of 5 people found the following review helpful. Great Map! By Happy Traveler This map is outstanding! I almost could have gone without my guidebook with this map. It has all the Copenhagen highlights clearly marked (including Stroget, which most maps don't include), all the hotels (VERY helpful) clearly marked, all the train stations - including lines, etc. It's very easy to follow - it was a lifesaver for me! It was also nice that it was laminated, yet it wasn't plastic, so I could bend it to fit in my bag. I never thought I would be so impressed with a map!
