LabergeMap fits in men's front pant pocket, so easy to have handy, good listing of tourist points of interest and is tough because of plastic coating. For those traveling cross country with rental car in Norway, I suggest buying the 'book' maps (Cappelen Damm Kart) available in Norway at the book stores there: very handy with spiral hinge back and map legends have English explanations, they are about 9 x 14 inches, are a little spendy but worth it at ~ \$42 usd for the whole country.2 of 2 people found the following review helpful. Very UsefulBy Jim SatoLots of landmarks. In different languages. I actually could find places of interest. Laminated and can be bent without creating holes in the map.0 of 0 people found the following review helpful. Five StarsBy RubylotusAnother great map by Borch.
