This is a good book for travellers who like drive tours, walking and hiking and like to plan their own itineraries. We had a very difficult time finding information about hikes around Costa Del Sol. On one hike, we met a group from the Marbella Walking club and asked them where we could get detailed information about hikes in the area and directions to trail heads. They recommended the book with the sunflower and told us it was the best. I agree. The book has car tours of the area, with pictures and information about trails from those routes. The trail maps have symbols showing highlights like scenic vistas and quarry. It gives us elevation gain, loss, distance and trail conditions (Eg. wet, rocky, steep). The book is small enough to fit easily into a backpack. The picnic settings recommended in the book are good for enjoying mountain villages and the scenic beauty of the area. The information in the book takes you off the beaten path to areas the tour guides do not mention.
