Jacques Sauvage : Latvia: A Love Declaration in 35 Pictures before purchasing it in order to gage whether or not it would be worth my time, and all praised Latvia: A Love Declaration in 35 Pictures:

1 of 1 people found the following review helpful. "It Lets Pictures Speak"By Don KidwellGreat natural photos complete with narrative that includes the info on the region from which the photos were taken which for me gets high marks since too often this knowledge isn't presented in pictures leaving me wonder where to find it if ever I should visit. Generally well-written, too, as I only noticed a couple instances where the letter 'i' was dropped such as "Storks frst, always!" at page 3 location 31 and '...smoked fsh, called "Zivi" ' at page 8 location 42. Well done, I liked it!

Latvia - former part of the Sowiet Union, now a country still sparsely populated with half of its 2 million inhabitants living in the capital, Riga. If you take the chance to travel there, you will encounter a rural life that reminds of olden times and makes you feel at ease with nature. Most areas are yet devoid of today's ubiquitous super-civilisation. Latvia

is a highly fascinating country and year after year more people decided to spend their holidays off the beaten tracks - and are highly rewarded. A few reasons should become obvious after seeing this book. Riga has always been a magnet for tourists, but hardly anybody continues on into the rural areas. Enjoy the vast emptiness of Latvia - it will have been a long time since you were surrounded by so few people.. All texts within the book in English!
