**From Penton Overseas : Learn in Your Car Russian: The Complete Language Course [With CD Carrying Case for People on the Go and Travelogue DVD] (Russian Edition) by Henry N. Raymond (2006-11-04)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Learn in Your Car Russian: The Complete Language Course [With CD Carrying Case for People on the Go and Travelogue DVD] (Russian Edition) by Henry N. Raymond (2006-11-04):

1 of 1 people found the following review helpful. fun but no serious way to learn a languageBy MoD-1These things are great to listen to, to hear the pronunciation of various native speakers (they might use 3 different speakers over the course of the 3 volumes) but there is no way that you're going to learn a language this way unless you are a mimic. They are good for practice and pronunciation, though.They don't make you come up with the translations on your own.It's too easy to sit back and wait a few seconds and just listen to the correct translation.And it's far too distracting to try to drive and listen to this at the same time.It's cool to rip to mp3 and listen to on a hammock though. I've had mine for 3 years and I've picked-up virtually no Russian at all this way.I've spent enough time studying languages to know that the only way to really learn them is to force yourself to translate back and forth between English and the foreign language and build-up your vocabulary. But still that will not give you the proper or even a realistic

pronunciation, and that is where these CDs really help. That one part makes this set (or something like it, with native speakers phrases) invaluable for anyone who is seriously considering the study of the Russian language. 2 of 2 people found the following review helpful. Learn Russian in Your Car levels 1,2 and 3. By Janet Gidley I bought all 3 levels. I have been teaching myself Russian for years and have been through many CD's. I couldn't find anything except repetitive travel beginner programs. This program introduces vocabulary and graduates to full sentences. By level 3 you can feel conversational in most every day situations. It's very handy to be able to listen to each lesson in your car, and you can double check what you hear later with the companion booklet. Russian grammar is incredibly difficult, but you learn most of it by carefully planned sentences that allow you to get the feel of it without memorizing endless endings. It's the best program I've seen (and I've seen most of them!) 2 of 2 people found the following review helpful. Great By Hey Dude I purchased quite a few Russian courses being determined to learn it. This includes the Penguin course, the CD based courses by both Rachel Farmer and the one by Daphne West, and this one. Of the CD based courses, so far I like this one the best. I must say that I have really enjoyed this course to date. I have not completed it yet, but it is a great way to build one's Russian vocabulary to the point where you could converse and get around in Russia. The included manual contains the English and the Russian Cyrillic which I find helpful so as to see how the words are spelled in Russian. At least in the early lessons, there is not much addressing proper grammar, as Russian grammar is different than English, but I think that this is addressed to some extent in the later lessons. I am using the Penguin text as well to supplement this and they do complement each other well.
