2 of 3 people found the following review helpful. Learn Russian But In More Than 5 Days By Peter F. Andrus An interesting book if you are trying to learn Russian fast. However, the technique is not so great. There are pages with lists of words to memorize and hopefully build a Russian vocabulary on. However, without the use of any audio CD's this book is very limited in usefulness. It does present the most useful Russian words but you can get these off the

internet. Only buy it if you need it for a Russian library. 1 of 2 people found the following review helpful. Excellent product. By Garrison56 Excellent product.

Learning to read a language with a foreign alphabet can be an intimidating challenge. Even before you can start to study the vocabulary and grammar, you must first decipher this strange new script. But learning a new alphabet does not have to be so difficult. Other language courses start by showing a table of the alphabet and then immediately proceed to dialogues and grammatical descriptions. This is not the ideal way to teach a foreign alphabet, and this approach causes many students to get frustrated and give up before they start. Instead of that approach, *Learn to Read Russian in 5 Days* teaches each letter of the Russian alphabet in a systematic way while providing enough practice along the way to ensure the student learns the entire alphabet. With this system you will be able to read the Russian alphabet in only 5 days or less! In addition to the alphabet, this course teaches more than 150 real Russian words that were carefully selected to be of maximum benefit to beginning language students. These are the words that you need right away. Order a copy of *Learn to Read Russian in 5 Days* today and start to enjoy the Russian language and culture in a way that only reading the language makes possible.
