Cure For Pazzo in ItalianoBy MataLove the comment that the shrink gives the patient who has a self esteem issue, to go to Italy for a month and her problem will be solved by the men who will raise her esteem as they look and cop a feel when appropriate. Also the little mention of the LA moms giving the kids a choice; how new age, opposed to the mama who grabs the kid by the ear and gives him a real lesson. Kids want

boundaries and new age parents give the little angels too many choices in my opinion. They Want the guidance, but these new wonders make them choose when they are too small to be able to do so. Wonderful stories, great attitude, the traveler who wanders from the inside out. Love Her. Love Italy. Just crossed border into Provence and missing Italia...2 of 2 people found the following review helpful. If you are headed to Italy....or not!By Cityboy TravelerIf you are headed to Italy, or have been to Italy, or will never go to Italy but like to think about it, get this book. In fact, get it even if you just need a smile brought to your face. Ms. Van Allen's delightful stories will make you say, "Oh, I can't believe she DID that", or "Yes, yes, that happened to me too! I didn't understand until now." Or perhaps you will say, "Darn it, how come things like that NEVER happen to me?". Well read the book, be inspired, and maybe they WILL!0 of 0 people found the following review helpful. Fun to read and good infoBy ValerieI became a fan of Susan Van Allen when I read 100 Places in Italy Every Woman Should Go. In her latest release, she starts the chapters off with stories of her travels and adventures in Italy, then caps it off with personal advice on places to see and where to eat like a local. I thought it was fun to read and will make notes of restaurants for future travels. I like her spunk, and "connect" with her through our shared experience of being Italian-American, and discovering shades of the family in faces here in Italy.
