Francis Thompson : Lewis and Harris: Pevensey Island Guides before purchasing it in order to gage whether or not it would be worth my time, and all praised Lewis and Harris: Pevensey Island Guides:

3 of 3 people found the following review helpful. a beautiful book on Lewis and Harris Scotland By Deborah Macgillivray Lewis-Harris, two isles in one...lol, one of the most beautiful, breathtaking places on earth. The vivid extremes of colours and landscapes just boggles the mind. Frankly, I did not think a slim book could really portray the soul inspiring beautiful so well, but Francis Thompson's Lewis Harris does just that. From the white sands, to the turquoise waters, the green rolling lands, to the jagged rocks, this island is mesmerising with this constantly changing beauty. If that is not enough you have Calanais (Callanish, the Stonehenge of the North). Sorry, Calanais is much older, and stirs the mind and soul in a way Stonehenge never did. When you toss in the other stone circles, Duncarloway broch, here history collides, Bronze Age, Iron age and good golfing!! lol This is simply a beautiful work,

loaded with dozens of brilliant colour photographs covering every aspect of life on Lewis and Harris. A must for someone daring enough to visit, a delight to those you like to visit from their armchair. 1 of 1 people found the following review helpful.
