**Mark Cramer : Living and Working Abroad: Barcelona (Culture Shock!)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Living and Working Abroad: Barcelona (Culture Shock!):

0 of 0 people found the following review helpful. A little dated, but a good perspectiveBy J. Alfred Bloomington III had to spend some time in the Barcelona area for business, and I wanted to have some understanding of the culture. This book is not a simple travel guide, as the series subtitle says it aims to give you an understanding of the people--how they act, and why. The book is a little out of date when it comes to discussions of currency and some of the

economics, but otherwise I felt that the book helped me understand, experience, and enjoy Barcelona and its residents.
