Good book to have.By LondiVery informational book...almost too informational and not enough about the "feeling" of being in Italy except toward the very end.2 of 2 people found the following review helpful. A very helpful book for relocating to ItalyBy Rares PetrescuIt's like a good starter on a

menu. You can't feel full after a starter, but still you begin to get an idea about it. A very well written book. I can't say a single negative thing about it. Good luck for those thinking to relocate to Italy. 0 of 0 people found the following review helpful. In great condition and just as described. By T. Lush. In great condition and just as described.
