Geographers' A-Z Map Company : London 2012 Street Atlas (London Street Atlases) before purchasing it in order to gage whether or not it would be worth my time, and all praised London 2012 Street Atlas (London Street Atlases):

0 of 0 people found the following review helpful. The bee's kneesBy Gaston FeeblebunnyIf you want to step up from those fold-up laminated "street guides," (I have them for London and Paris), you'll LOVE this. I bought it to accompany Clive James's "Unreliable Memoirs," chronicling his years in London. Exhaustive. Spiral binding and size are perfect.0 of 0 people found the following review helpful. Should prove very usefulBy Michael G. SteeleI had the huge AZ map of London but it so big it is difficult to use unless you have a large table in a well lit room to look at it. London is a city I suspect you shouldn't enter without a compass and a very good map. This atlas is compact and easy to use and the index makes it a snap to find the right map.0 of 0 people found the following review helpful.

ExcellentBy Donna MThis is an excellent map to navigate the confusing streets of London. We are packing it it find where to go and what to do, and which subway stations we want to use.
