Heather Reyes : London (City-Lit Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised London (City-Lit Series):

Real Travel - LondonBy Malcolm CameronThis is a delightful fruit salad of views of London ranging from Virginia Woolf, Joseph Conrad, Aldous Huxley to Xiaolu Guo's `A Concise Chinese-English Dictionary for Lovers' over 120 in all. Each is a snippet of a page or two, each insightful, each easy to read.Not only a unique travelogue but an opportunity to read these authors, perhaps for the first time. An opportunity

to read history, opinion, places, loves, attitudes and things that make London...well...London. And through the eyes of those who were part of it. City-lit London is part of a series: city-lit Paris, London, Berlin, Amsterdam, Dublin, Venice, New York from Oxygen Books. Strangely `city-lit Paris' is not on - perhaps it contains a witty leak of a French-letter from the USA ambassador to Hillary, who knows? This is the essence of travel. I look forward to receiving the rest of the series. 0 of 0 people found the following review helpful. excellent views of London By Sandra R.
