This is a great map for keeping in your pocket while in London - it folds easily, and has a subway map that is useful for quickly figuring out your route or location. However, it is not very detailed, and does not cover enough of London to be your only map. I would recommended pairing this with a larger, more complete and detailed map that you could carry in a backpack/purse.

This innovative map collection provides all the essential travel information for the active traveler or map user. With its unique design, it unfolds and refolds effortlessly to fit in your pocket. Features include: area, street and transportation maps, top 10 sights, eating and shopping recommendations, street and sights index, tear-resistant folds, high-quality laminated cover and compact size.
