London popout MapBy Tj JohnsonI must say that the Pop-Out Maps are the "BEST"~~forget those paper ones that you have to fold up to put into your purse or pocket. I have the BATH Popout Map and the (LONDON Popout Map SPECIAL EDITION MAP)...they are detailed and very easy to read~~you don't need special glasses..ha The LONDON Popout Map has 2 Maps...when you open it there is a pop-out-map of Central London on the left ///and a pop-out-map of The Heart of London on the right~~~~perfect!!! It has separate map of the Main Bus Routes and a separate map of the Heart of the Underground..and a separate map of Covent Garden Theatres...and has printed all the points of interest, street index, London events, museums,arts antiques,shopping, top parks, airports etc....and everything is at your fingertips~~and I might add~no loose pages to fall out...just make sure when purchasing the London Map that it says right on the front "SPECIAL EDITION MAP" you won't be disappointed!!! They each measure 5" by 3.75" ~~ a perfect size to carry! TJ3 of 3 people found the following review helpful. Easy!!!By A CustomerThis has got to be the best and handiest map i've ever had! It's small, easy to carry, important buildings on the map. London was our last stop, on our backpacking trip, so we've seen A LOT of useless ones. This map also has top tourist places from food, to shopping to museums, etc. It also has the TUBE (underground) map, on it.3 of 3 people found the following review helpful. A must-haveBy A CustomerI've used these maps in several different cities and recommend them to everyone I know. They cover all the areas of the city (and or region) you're likely to need as well as major public transportation routes. They're easy to read and help you move confidently and safely in unfamiliar territory.

Pocket pop-out map of London - fits perfectly in your pocket
