**Stephen Millar : London's Hidden Walks Volume 1 (Pocket London)** before purchasing it in order to gage whether or not it would be worth my time, and all praised London's Hidden Walks Volume 1 (Pocket London):

0 of 0 people found the following review helpful. Very interesting read with lots of useful bitsBy C. PiersoIt is comprised of about 6 or 7 walks, each in a different part of London. For each walk, they give an overview map of the walk along with each point-of-interest numbered. What follows is the interesting part--the walk is a kind of story with lots of information and history about the points of interest. Thousands of Londoners and tourists alike pass these spots every day, not knowing the rich history behind that particular area. It's a great read even if you don't take the walks. The book is somewhat compact, so it's easy to carry on your walk.0 of 0 people found the following review helpful.
