**Gwen Headley : London: Sight Unseen** before purchasing it in order to gauge whether or not it would be worth my time, and all praised London: Sight Unseen:

Go beyond Buckingham Palace and uncover the delights of over 120 unique London buildings captured by one of the great photographers of the twentieth century. Lord Snowdon has traversed the city, taking pictures that are evocative, intriguing and inspiring. The result is a tour of London's architecture that reveals the unexpected, the unusual and the largely unseen. He takes you to a boathouse that's the epitome of Georgian elegance tucked away on the banks of the Thames, and a staircase that rises from a mooring in front of the Houses of Parliament with a sentry box at the top. On Old Brompton Road, visit a humble cottage that presents a cheerful face to the world, painted in a sunny yellow color. How these structures came to be built and for whom and when, is also engagingly told. 144 pages (all in color), 9 x 10. NEW IN PAPERBACK

About the Author A photographer, filmmaker and a designer, Lord Snowden has also produced twenty books and directed nine television documentaries.
