Awesome sketchbook travelogueBy StephanieI recently bought this book on a whim after I saw a book review by Parkablogs and I am so glad I purchased it. I love art books and I'm an art major and I found this book to be absolutely wonderful. It's small in size (like a sketchbook) and is filled with detailed drawings and little bits of information and facts about the places in London.If you are thinking about whether you should buy this book or not, **YOU WON'T REGRET** buying it if you're a sketchbook travelogue fan.1 of 1 people found the following review helpful. Great bookBy Kindle CustomerIt's a wonderful addition to my collection. I like to collect sketchbooks of the places I visit and this one is a great addition. Thank you.0 of 0 people found the following review helpful. great architectural drawingsBy trishainseattleall the landmarks are there, great architectural drawings.

A celebration of one of the world's great cities, London Sketchbook is packed with over 200 evocative watercolor illustrations of the author's favorite landmarks and sights. The illustrations are accompanied by historical footnotes, maps, quirky facts and a gazetteer.
