Jason Brooks : London Sketchbook before purchasing it in order to gage whether or not it would be worth my time, and all praised London Sketchbook:

2 of 2 people found the following review helpful. Brooks' "next-century modern" perspective that solidifies his place in Pop Art conversations along with names like Wesselmann anBy Douglas ParisLondon Sketchbook is a seamless

follow up to Mr. Brooks' "Paris" offering. There are the numerable images, tips, and insights that I find fascinating and have come to expect, as well as the inclusion of multiple fully realized color plates, capturing Mr. Brooks' artistry at its most fully developed point. Transcending "sketchbook", we are given an insight into Mr. Brooks' "next-century modern" perspective that solidifies his place in Pop Art conversations next to names like Wesselmann and Lichtenstein. The sketchbook series, along with a prolific corpus of work, brings an engaging and rarely attainable quality of expression to a global audience who...like me....will be watching for what comes next. 1 of 1 people found the following review helpful. Traveling through illustration By CMA nice book that combines illustrations and travel tips, helpful to both the first time visitor or the returning traveler. Both the London Sketchbook and its companion, the Paris Sketchbook, are beautifully done, of high quality editions, and sit nicely on my coffee table. Looking forward to Jason Brook's New York Sketchbook coming up. 0 of 0 people found the following review helpful. Visit London without actually going there. By Highlandbird This is the book if you want to re-visit London with actually going there. I spent a few years there in my teens and 20's, and I've been back a few times since, so I know it pretty well. This book brought me back, and it is an introduction to London for my daughter, with whom I am going to London in June. So it is a retrospective and a glimpse into the now as well. It recommends shops, restaurants, historically and architecturally significant places, etc. Good as a memory jogger, conversation starter or an introduction. Illustrations are fab. Love it!

This follow-up to Jason Brooks's highly successful Paris Sketchbook is a stunning gift book that brings the big smoke to life through beautiful imagery. From the West End to the Square Mile and Harrods to hipster hang-outs, Brooks explores modern-day London through his unique visual repertoire that unites high fashion, fine art, and traveler's sketches made on the fly. Although best known for his gorgeous fashion illustrations, which feature regularly in Vogue and Elle, travel has been a recurrent theme in Brooks's work and, with this new volume, his picturesque adventures continue to amuse and inspire. Part guide book, part illustrated journal, this whimsical take on the cosmopolitan city will appeal to both London lovers and fashionistas. Sumptuous production with different stocks and inks will make this a must for anyone who loves fashion illustration and beautiful books.

About the Author Jason Brooks began working regularly for British Vogue after winning the Vogue Sotheby's Cecil Beaton Award for Fashion Illustration. Jason has drawn at the couture shows in Paris for the Independent newspaper, those in New York for Visionaire and London Fashion Week for Elle. He is the author of Paris Sketchbooks, 2013.
