Alex Robinson : London Southeast with Kids (Footprint London Southeast with Kids Handbook) before purchasing it in order to gage whether or not it would be worth my time, and all praised London Southeast with Kids (Footprint London Southeast with Kids Handbook):

London Southeast with Kids is the ideal source of information for fun activities in this most vibrant part of England, providing the perfect balance of practical advice and inspirational ideas. It covers all the best activities, sights, and big days out, along with the best places to stay and to eat. Gorgeous photos highlight Footprint's family holiday favorites. The guide is divided into the key regions providing information on a tremendous array of activities and on both major sights, such as the Tower of London, and lesser-known attractions. All entries for attractions, accommodations, and

places to eat include GPS-compatible information. Insider information ensures you the best value for your stay, and suggested reads for kids and adults will whet your appetite before you depart. Last but not least, each section includes fabulous ideas for rainy-day fun.

About the Author Alex Robinson is a writer and photographer based in Brazil and the UK and has worked for numerous magazines, publishers and broadcasters, including Departures, Condé Nast, The Financial Times, Wanderlust, the Discovery Channel and the BBC. He is married to Gardênia from Minas Gerais and they have a son called Raphael. For more information, see alexrobinsonphotography.co.uk.
