Take it with you to London - get lost otherwise!!By ElaineI couldn't find my old London A to Z so, as I will be on London later this year, I had to get a copy. An invaluable guide to have while in London - every part of the city is covered and there is a map of the tube on the back to help with getting around.A must-have.1 of 1 people found the following review helpful. small print mapBy barbara greekThe print is very small. it seems to have a great map of every street in London , however the print is too small to read it

comfortably0 of 0 people found the following review helpful. Heard about this book for ages and now I have my very own!By Colette RostA legendary booklet for exploring a legendary city! I LOVE London and now I will be able to find my way around!
