Map Group : London (UK Popout Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised London (UK Popout Maps):

One has an enlargement of the west end of london and the other has an enlargement of a more central (and useful) area. There was no way to tell what was inside the map when I ordered them. Price, even with shipping is very reasonable.0 of 0 people found the following review helpful. A life saver in London!!By Julie MarrsThis little map is SO great - easy to carry in purse or pocket, then unfolds to show tube stops and most attractions. Just a great little map, I will get one for any city I travel to if available!!0 of 0 people found the following review helpful. Love these pop-up mapsBy MGIItem as described.
