Lonely Planet, Bradley Mayhew, Greg Bloom, Paul Clammer, Michael Kohn, John Noble : Lonely Planet Central Asia (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Central Asia (Travel Guide):

10 of 10 people found the following review helpful. Best of the Breed for Central Asia, but With Some ErrorsBy
JeffThe Lonely Planet Central Asia Guide is simply the best guidebook out there covering all of the five "Stans"
making up the former Soviet republics. They even throw a section on Afghanistan in for good measure, though the

authors acknowledge they did not actually travel to Afghanistan for researching the book - which is understandable. That said, this guidebook is pretty much the only one out there covering this little travelled region as a whole. It covers some of the major tourist destinations quite well - such as Almaty, Kazakhstan; Samarkand, Uzbekistan; and Bukhara, Uzbekistan. However, it does start to show some weaknesses when the traveler begins venturing from the major transportation centers. One particularly glaring error is the amount of time the authors of the guidebook suggest it takes to travel in the region via automobile. For example, I had to travel from Bukhara to the border crossing with Tajikistan at Denau, which according to the guidebook would take 5 ½ hours. In reality, the road venture took more than 12 full hours to cover over sometimes very bad roads and through multiple police checkpoints. While this region is probably one of the more difficult to cover for travel guidebook writers, errors such as this makes you wonder how much of their recommendations they've actually experienced themselves. Bottom line: if you are travelling to the region, you really must have this guidebook to accompany you. Virtually every single tourist we met in the region had their own copy of it. That said, considering where you are traveling, you need to accompany this guidebook with a lot of other work to really understand what you are doing. There are lots of good travel blogs to help you plan your trip, and even Tripadvisor has some good hotel and restaurant picks for Central Asia to consider beyond what Lonely Planet offers. Get the Lonely Planet guide, but plan of doing some reading and planning beyond what it has to offer.

By Michigander
This is the only guide to this part of the world so of course is the best one! Actually there is a LOT of good information, but unfortunately the book is printed in tiny grey print, and cannot be read with magnifying glasses when lighting is optimal. Other than that the historical and background information is very good.

By Hilda Matthews
I am sorry I did not realise this used copy is dated 2010. It seems there is a more up-to-date version available which would have suited my trip better as things like prices/new hotels/restaurants vary greatly over a few years.

Lonely Planet: The world's leading travel guide publisher Lonely Planet Central Asia is your passport to all the most relevant and up-to-date advice on what to see, what to skip, and what hidden discoveries await you. Sample lamb kebabs and nan bread from roadside grills, hike through the Ak-Say Canyon, or marvel at Yasau Mausoleum's beautiful architecture; all with your trusted travel companion. Get to the heart of Central Asia and begin your journey now!
