Lonely Planet, Andy Symington, Sally Davies, Regis St Louis : Lonely Planet Discover Barcelona 2017 (Travel Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Discover Barcelona 2017 (Travel Guide):

Personally, I found them disappointing. The recommendations for food and sights were generally uninspired and no better than I could get from a casual web

search. There were no interesting 'walking tours' provided. On the plus side, they were well written and current. If you're looking for something that will save you time in pulling out your phone and searching, this might work for you. I ended up leaving all the guides in Europe in our rooms because I had no expectations of passing them along to friends. 7 of 7 people found the following review helpful.
