**Lonely Planet, Regis St Louis, Anna Kaminski, Vesna Maric : Lonely Planet Discover Barcelona (Travel Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Discover Barcelona (Travel Guide):

organizedBy EricaI'm was disappointed in the organization of this book. While it contains useful information, the important places to visit are described in multiple sections. This is repetitive (packing light for a trip, I don't want to tote a book that's larger than necessary) as well as confusing. If I want to know what hours a market or museum is open, I shouldn't have to go hunt through the four different sections scattered throughout the book on that site searching for the information. Got home last night from my trip to Spain and gave away the book while there since I'd rather get a different one for my next trip. The book may have been so-so, but I'm in love with Barcelona, and can't wait to return!
