...By James E. May Everyone has their own preference for guidebooks. I like the organization of Lonely Planet better when planning what to do each day. Restaurants, hotels, and sites are all on the same map or at least together. That part is better than Rick Steves' book. Rick Steven book is better in bringing Italy alive and preparing you mentally for the trip. So both helped but for essentials and no nonsense, I like LP better. 0 of 0 people found the following review helpful. best of the italian guides lots of information on numbers ...By ozarkdocbest of the italian guideslots of information on numbers etc you will need to call to get museum tickets, train tickets etc 0 of 0 people found the following review helpful. and we found this book to be incredibly useful for planning our trip By B.
