The size, big enough but not so big you feel like you're carrying a brick around all day. Good info. Who'd a guessed Robert Hughes had a book on

ROME (loved FATAL SHORE). And a MAP for planning purposes, at least. Often my husband, the on site navigator, changes to another map--but this way we have something for me to do the planning. 0 of 0 people found the following review helpful. Would do your trip injustice to not have this kind of assistance. By Sanjay Juneja Great, great aid for my wife and I during our trip to Rome. Couldn't leave our place without it. You definitely need to at least familiarize yourself with the layout of the book prior to taking your trip, otherwise it appears intimidating and with far too much information--it's not. Like all of their books, the first few pages tell you the overall top places to see. Then it breaks down the city by each area, so when you flip to it because you're going to that area that day, it tells you the top things to see, do and eat in that location / region. All the restaurant recommendations were on point; you get to pick what you want because they have a short blurb about what the restaurant mood and type of food is. Would have greatly shortened our trip and not done it justice if we did not have this book aid. 0 of 0 people found the following review helpful. Great Rome Planning Book for DIY Visit to Rome By Man Great, Simple, Easy to Use guide to Rome. I just got back from 7 days in Rome and this book was very useful. It was especially helpful in suggesting restaurants in near where we happen to sight see and decided to take a break. It has recommended sights and recommend 3 or 4 day tours planned. Great book for a DIY visitor to Rome. I only wish I had read the book more carefully before going to make better decisions once we arrived.
