Lonely Planet, Neil Wilson, Andy Symington : Lonely Planet Discover Scotland (Travel Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Discover Scotland (Travel Guide):

We often left it in the hotel while taking along others we had purchased. Little bits of information about a few chosen things. Not ones that we ended up

being interested in or wanting to visit. We had better luck finding accommodations just by searching the web. The interactive Kindle Edition I purchased as well was never used. The maps all had to be downloaded individually ahead of time and in areas with little internet access we ended up just buying or finding other maps to use. Was rather sadly disappointed. 1 of 1 people found the following review helpful. Loving this book! By maxjam98 Unfortunately, we only have 3 days to spend in Scotland... and it's clear from this book that will not be nearly enough! The book is very well organized by area, has fabulous pictures and notes "must sees". It's very easy to use and includes all the important information such as hours/days of operation of attractions, precise locations, accommodations, etc. If you intend to go to Scotland, I highly recommend you purchase this book before you get too far along in your planning. 0 of 0 people found the following review helpful. Extremely Useful! By sunshyness I used this book to plan a 3 day trip in Edinburgh and had an absolutely wonderful experience. The guide provided information I was looking for such as transportation from EDI to city centre, sights, and dining locations. Highly recommend purchasing this guide!

About the Author Neil was born in Scotland and, save for a few years spent in England and Australia, has lived there for most of his life. When he was 14 he relieved the boredom of a rainy school holiday by leafing through a book about the Scottish mountains. The photographs of mist-veiled ridges, yawning cliffs and distant sea lochs opened the door to a lifelong enthusiasm for the great outdoors, and since then he has hiked, biked, climbed, sailed or snowboarded in almost every corner of the country. Neil has been a full-time writer and photographer since 1988 and has written around 45 guidebooks for various publishers, including Lonely Planet's guide to his home town of Edinburgh.
