**Lonely Planet : Lonely Planet Discover Spain (Lonely Planet Travel Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Discover Spain (Lonely Planet Travel Guide):

0 of 0 people found the following review helpful. Not Impressed By Spencer Johnson I recently purchased Lonely Planet Discover Spain for a two-month study abroad that I would be doing out of Madrid. Although we lived most of the time in Madrid, we spend half our time traveling around to all the different parts of Spain - San Sebastian, Bilbao, Valencia, Cuenca, Barcelona, Toledo, Granada, Cordoba, Sevilla, Salamanca, etc, etc. I had never traveled to Europe

before, and so I thought that getting a travel guide would be an excellent idea in order to fully appreciate a different culture and get the most out of my experience. Unfortunately, I would have to say I was very disappointed with this book. The descriptions are short and to the point, and overall in general it contains little useful information about how to get around, where to stay, where to eat, history of the city, etc. Many of my friends had either Rick Steves' Spain 2011 with map or Lonely Planet Spain (Full Color Country Travel Guide), both of which contained 5-6x as much information and definitely were a lot more useful, and cost a few dollars less. I ended up using this book for the first week and then ditching it all together and borrowing a friend's copy of Rick Steve's or the other Lonely Planet Book as they were a lot more informative. 0 of 0 people found the following review helpful. Three Stars By Charles R. Pitts it is a good book, not some details 0 of 0 people found the following review helpful. Spain guide book By jim I just came back from 10 days in Spain, including Madrid and Barcelona. Considering the cost and effort of a vacation, it is worth doing your research and I bought this general book and specific locale books from Lonely Planet, Frommers and Rick Steves'. Since we were stopping in Zaragoza, I needed a whole-country book and the 5 pages on Zaragoza was valuable. Otherwise, city-specific books would have worked just fine. Also, I found a lot of detailed and up-to-date information by researching on the Internet. Many of the Spanish tourist sites have at least some material in English.

Experience the Best of Spain The Alhambra, La Rioja's vineyards, the Sagrada Familia – we've selected the most iconic sights and incredible places so you can enjoy the real Spain with the minimum of fuss. Highlights reveal the must-see attractions and unbeatable experiences Itineraries make planning your trip simpler than ever Local Experts recommend what not to miss Pull-Out Map puts the streets of Barcelona in your pocket Our Promise You can trust our travel information because Lonely Planet authors visit the places we write about, each and every edition.
