Lonely Planet produces the best travel guides. That said, this travel guide is a large, general guide to Europe. Every country is included, and all the important information is there. For instance, the section on Greece is 48 pages and pack with maps as much info as you can pack in that space. Germany comes in at 75 pages. Definitely, the best guide of its sort for the money! 3 of 3 people found the following review helpful. Great Book to start planning a trip By Customer Book is a helpful start for anybody planning a Europe trip. Not sure it has as much information as the internet but than again, it isn't intended to. 0 of 0 people found the following review helpful. What a great resource for helping plan the trip of a lifetime By Customer Loving this book! What a great resource for helping plan the trip of a lifetime. It's a bit heavy but for all the info in it it's well worth carrying it around. Lonely Planet does it again!
