**Lonely Planet : Lonely Planet Fast Talk Spanish (Phrasebook)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Fast Talk Spanish (Phrasebook):

4 of 4 people found the following review helpful. Love ItBy liz philLove It! The pages are all very beautiful and well drawn. The quality of the paper is great for any medium that you use to color. Well worth the money.2 of 2 people found the following review helpful. while others are just not all that pretty. Instead of a drawing of the Mona Lisa ...By JewnSince it was put out by Lonely Planet, I really wanted to see this one, but am not all that thrilled. Many pictures

are very busy, hard to figure out, and intense to color, while others are just not all that pretty. Instead of a drawing of the Mona Lisa to represent France, a sketch of the Louvre itself to color would have appealed to me more. But, it is still nice to take a coloring book tour through some of the most remarkable places on earth. 0 of 0 people found the following review helpful. A Little Disappointing By Ladyprof This coloring book has some really good pictures, some that are really simplistic, and some (of animals) that I don't like at all. The physical book is bound so that you can't remove the pictures without either completely removing the binding or tearing the pictures, and the pages are small. I haven't had the chance to try out my theory, but I have a lot of coloring books and I strongly suspect that markers are going to bleed through the page. This isn't a problem if you don't care about one of the pictures.
