Lonely Planet, Fionn Davenport, Catherine Le Nevez, Josephine Quintero, Ryan Ver Berkmoes, Neil Wilson : **Lonely Planet Ireland (Travel Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Ireland (Travel Guide):

3 of 3 people found the following review helpful. Excellent guidebookBy Joanne E.This is not our first trip to Ireland (for that I used another well-known travel writer). I found the Lonely Planet much more comprehensive,and it provided information in depth,about areas I have yet to visit. It's well-organized ,with many small maps and excellent

illustrations. It covers many areas that other guidebooks omit in favor of the tourist hot-spots. We prefer the back roads and less-visited sights and this has been very helpful in planning for trip #5 !1 of 1 people found the following review helpful. Very FrustratingBy K. RogersI used the kindle version and it was very frustrating.We were in Ireland and the UK for two months and often we would find our self in a small town or city and would want to get the details of that town. Because there is no straight forward index you have to use the search function. The search results give you all sorts of things that are not what you want. You have to hit on a bunch of results to find the simple section just on the town. It can take many minutes to find what you want. They need to add a simple index just like in the back of any traditional book.Also on my black and white kindle that maps were impossible to read. They worked well however on the Kindle App of my Ipad mini.0 of 0 people found the following review helpful. ... definitely help my fiance and I to formulate a good game plan for our tripBy JillianIt definitely help my fiance and I to formulate a good game plan for our trip. It was informative and helped us to make intelligent plans and decisions. We ended up having a blast on our trip and I can honestly say this guide did help in some cases. However, I would not go as far as to say that this book is a MUST HAVE. Anyone who knows how to Google can get most of the information found in this handbook. Nevertheless, this is a good book to help find a direction of what you want to do and everything you need to know about the country. It is incredibly easy to navigate, it is not an overwhelming book, and I would recommend buying this book for its cost and overall insight.

Lonely Planet: The world's leading travel guide publisherLonely Planet Ireland is your passport to all the most relevant and up-to-date advice on what to see, what to skip, and what hidden discoveries await you.
