Lonely Planet : Lonely Planet Italian Phrasebook Dictionary (Lonely Planet Phrasebooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Italian Phrasebook Dictionary (Lonely Planet Phrasebooks):

0 of 0 people found the following review helpful. helpfulBy HMSthis book is nice and handy, small enough to fit into a cargo pocket or back pocket on a pair of pants. it does have a nice feature of not only translating the words/phrases to

another language, but it also puts the phonographic spelling to, so you can actually say the words and pronounce them correctly. It also has a section on grammar...that is nice because it helps you to understand past/present/future tenses of the words. Other than that, this book is pretty useless. It does not have too many key phrases that are needed during travel. Doesn't help for if someone rattles off an answer to your question in another language...because you will not know what they just said to you. This book has an entire section on months, numbers, days, etc, that you will not use while traveling. If you are going to be in the area for an extended period of time, those may be helpful, but the typical traveler will only be there for a few days to a week, and you will not need that. Honestly, you can look up all the key phrases you will need on google translate and make your own cheat sheet, or use a translator app on your phone and it will get you by just fine. This book does have some nice little culture tips, which is nice for certain countries, but you can look up that online as well and make your own little guide about eye contact and body language or hand shaking in other countries. 0 of 0 people found the following review helpful. Not as good as Rick Steves By abcphd We took this phrasebook as well as the Rick Steves phrasebook on a recent trip to Italy. We ended up using the Rick Steves nearly all of the time. It was just better organized and easier to navigate, plus it had more phrases and (for me) better pronunciation guides. The books were actually fairly similar, but we were especially grateful for Rick Steves when we got sick unexpectedly and discovered that the RS book had almost twice the vocabulary for health/medical issues. This is not a bad phrasebook, but if they are a similar price the Rick Steves is better. 0 of 0 people found the following review helpful. Better than I Expected By vbnita I wanted to take a book that wasn't too big. This is the perfect size. The book is sectioned off in categories which should make it easy to find what we need in a hurry and phrases we would need. For instance, in the practical sightseeing section...When's the next tour? In addition to the Italian equivalent phrase, it also shows the pronunciation. It also has a menu along with a dictionary with the word in English and the equivalent Italian word in the back I'll update when we get back. I have Prime and the delivery was quick.

Lonely Planet: The world's leading travel guide publisher When even a simple sentence sounds like an aria, it's difficult to resist striking up a conversation in Italian. Besides, all you need for la dolce vita is to be able to tell your Moschino from your macchiato and your Fellini from your fettuccine!
