Has a slightly different approach than others and good info.4 of 8 people found the following review helpful. UsefulBy IkatIf the only place you're going in Poland is Krakow, this is fine. You'll only spend a few days there, so you don't need much more than this.1 of 6 people found the following review helpful. A waste of moneyBy Joyce millerI bought this primarily for the map. i have used lonely planet guides previously and found them all right but more for younger people than myself. This guide is a total waste, if I had not torn out the map I would have returned it. Also, note the

map is worthless. They should be ashamed of publishing such a book.
