**Damien Simonis : Lonely Planet Madrid** before purchasing it in order to gage whether or not it would be worth my time, and all praised Lonely Planet Madrid:

3 of 5 people found the following review helpful. um, i thought the guide was pretty good.By A CustomerI spent 5 days in Madrid last August and found this book to be a useful guide. it will lead you to a good time in madrid, which consists of going to the museums, a bull fight and eating a lot. also, i recommend going to one of the sherry bars mentioned in the book.

This guide offers inside information on Madrid's top sights and many less-known gems. It also includes information on

the best accommodation and restaurants to suit all budgets, as well as details of day trips to the medieval hill city of Toledo, historic Segovia and the Sierras.

As usual the guidebook standard is set by Lonely Planet-- Outside (USA)
