Lonely Planet : Lonely Planet Make My Day Rome (Travel Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lonely Planet Make My Day Rome (Travel Guide):

7 of 7 people found the following review helpful. More than a book - interactive! By AspieMomFinally, a city guide that appeals to me. I checked out 4-5 guides at my local book store, but they all seemed wordy and boring. This book has: two pull out maps, built in bookmark, elastic closure, and easy to use itinerary cards. Also, each activity card has

a top tip, map location, restaurant choice, basic facts, and opening/closing times. We won't have a lot of time to play tourist as the main reason we will be in the area is to participate in clinical research at NIH. This book will make it easy to find something to do, if we are able to have any downtime in the evening or on our last day. 2 of 2 people found the following review helpful. The book is set up that a page is divided ...By jif_skippy The book is set up that a page is divided into 3 sections horizontally. The top for the morning, middle for afternoon, and bottom for the night time. You can flip through the book and take the morning section of say page 2, line in up with the afternoon of page 4, etc. Problem is if a museum is in the morning section but you're actually planning to go in the afternoon. So I didn't find it that helpful. I only really used it for the included map. 2 of 2 people found the following review helpful. If you do days like they suggest you'll end up exhausted By Mafalda This guide only serves to know the "name" of the attractions. If you do days like they suggest you'll end up exhausted, specially if you go visit over the summer. I know you "don't have" to do everything, and I didn't do it. However, you should consider that when you buy it (as many other reviewers had said).

Lonely Planet: The world's leading travel guide publisher Lonely Planet Make My Day Rome is a unique guide that allows you to effortlessly plan your perfect day.
